

.Trasteel
TOOLS

**Tools for
hydraulic
hammers and
milling bits**

Trasteel TOOLS

Trasteel Tools offers our customers two lines of tools for demolition and milling:

- Tools for Hydraulic Hammers
- Milling bits

Both are manufactured with rigorous and demanding quality controls common to all **Trasteel Wear Parts**, delivering excellent results.

Demolition and milling tools
following Trasteel Wear Parts
quality standards

	Model	Types	Uses
P		Conical	Breakage of low-abrasive or loose soils made up of homogeneous material
S		Chisel	Breakage of asphalt and concrete
D		Blunt	Breakage of massive rocks
E		Pyramidal	Demolition of concrete and compact materials

Milling bits **.Trasteel** TOOLS

The **Trasteel Tools** Bits follow and meet all our own quality requirements. We offer a full bits range for different works as milling for rock, concrete and asphalt with exceptional performance on all of them.

Our range of cutting tools covers diameters from 10 m/m to 30/38 m/m., each applying different lengths and diameters on Tungsten Carbide tip.
